

Tribhuvan University  
Institute of Science and Technology  
**SCHOOL OF MATHEMATICAL SCIENCES**  
Second Reassessment

Subject: Research Methodology

Course No: MDS 601

Pass Marks: 22.5

Level: MDS / II Year / III Semester

2hrs

Full marks: 45

Time:

Candidates are required to give their answers in their own words as far as practicable.

**Attempt All Questions.**

**Group A [3x5=15]**

1. Explain the difference between a convenience sample and a Judge sample. Which is better?
2. Define Literature review. What are the benefits of good literature review?
3. Explain the Nominal scale. What statistical techniques can be used with a nominal scale?
4. Describe the nature and purpose of exploratory research design.

**Group B [5x6=30]**

5. "The distinction between basic and applied research is that the purpose of the former is to answer a question and the purpose of the later is to solve a problem" comment on this statement.
  6. Discuss research design. Is it possible to conduct a research study without a formal research design? How?
  7. Describe the major steps involved in the scientific research process?
  8. A researcher wants to conduct a survey of disabled at Kathmandu valley. What should be the sample size of the prior estimate of population of disables if the population is 10% and the desired error of estimation is 2% and level of significance is 5%.
- or
9. Discuss the term citation. Describe the APA 7<sup>th</sup> method of citation of book for single author and multiple author with example.
- or
10. What is research report? What purpose does it serve? Why is reporting of research study important?

Explain the contents of research proposal. Is there any difference between a funded research proposal and an academic research proposal?
